All:

Can you guys process CT/OT for the pay period beginning November 25 – December 8?

Current Comp-Time Accrual: 47.5 hrs

(URGENT): Also, I want to remind you guys that I will not be able to shut down operations on December 7 due to potential government shut down as I will have residential properties opened with a lot of equipment on rent. This needs to be discussed at whatever level and a way forward resolution needs to be made just in case of government shut down.

Thanks
